Centre historique

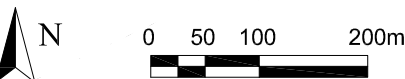

Faubourgs

N

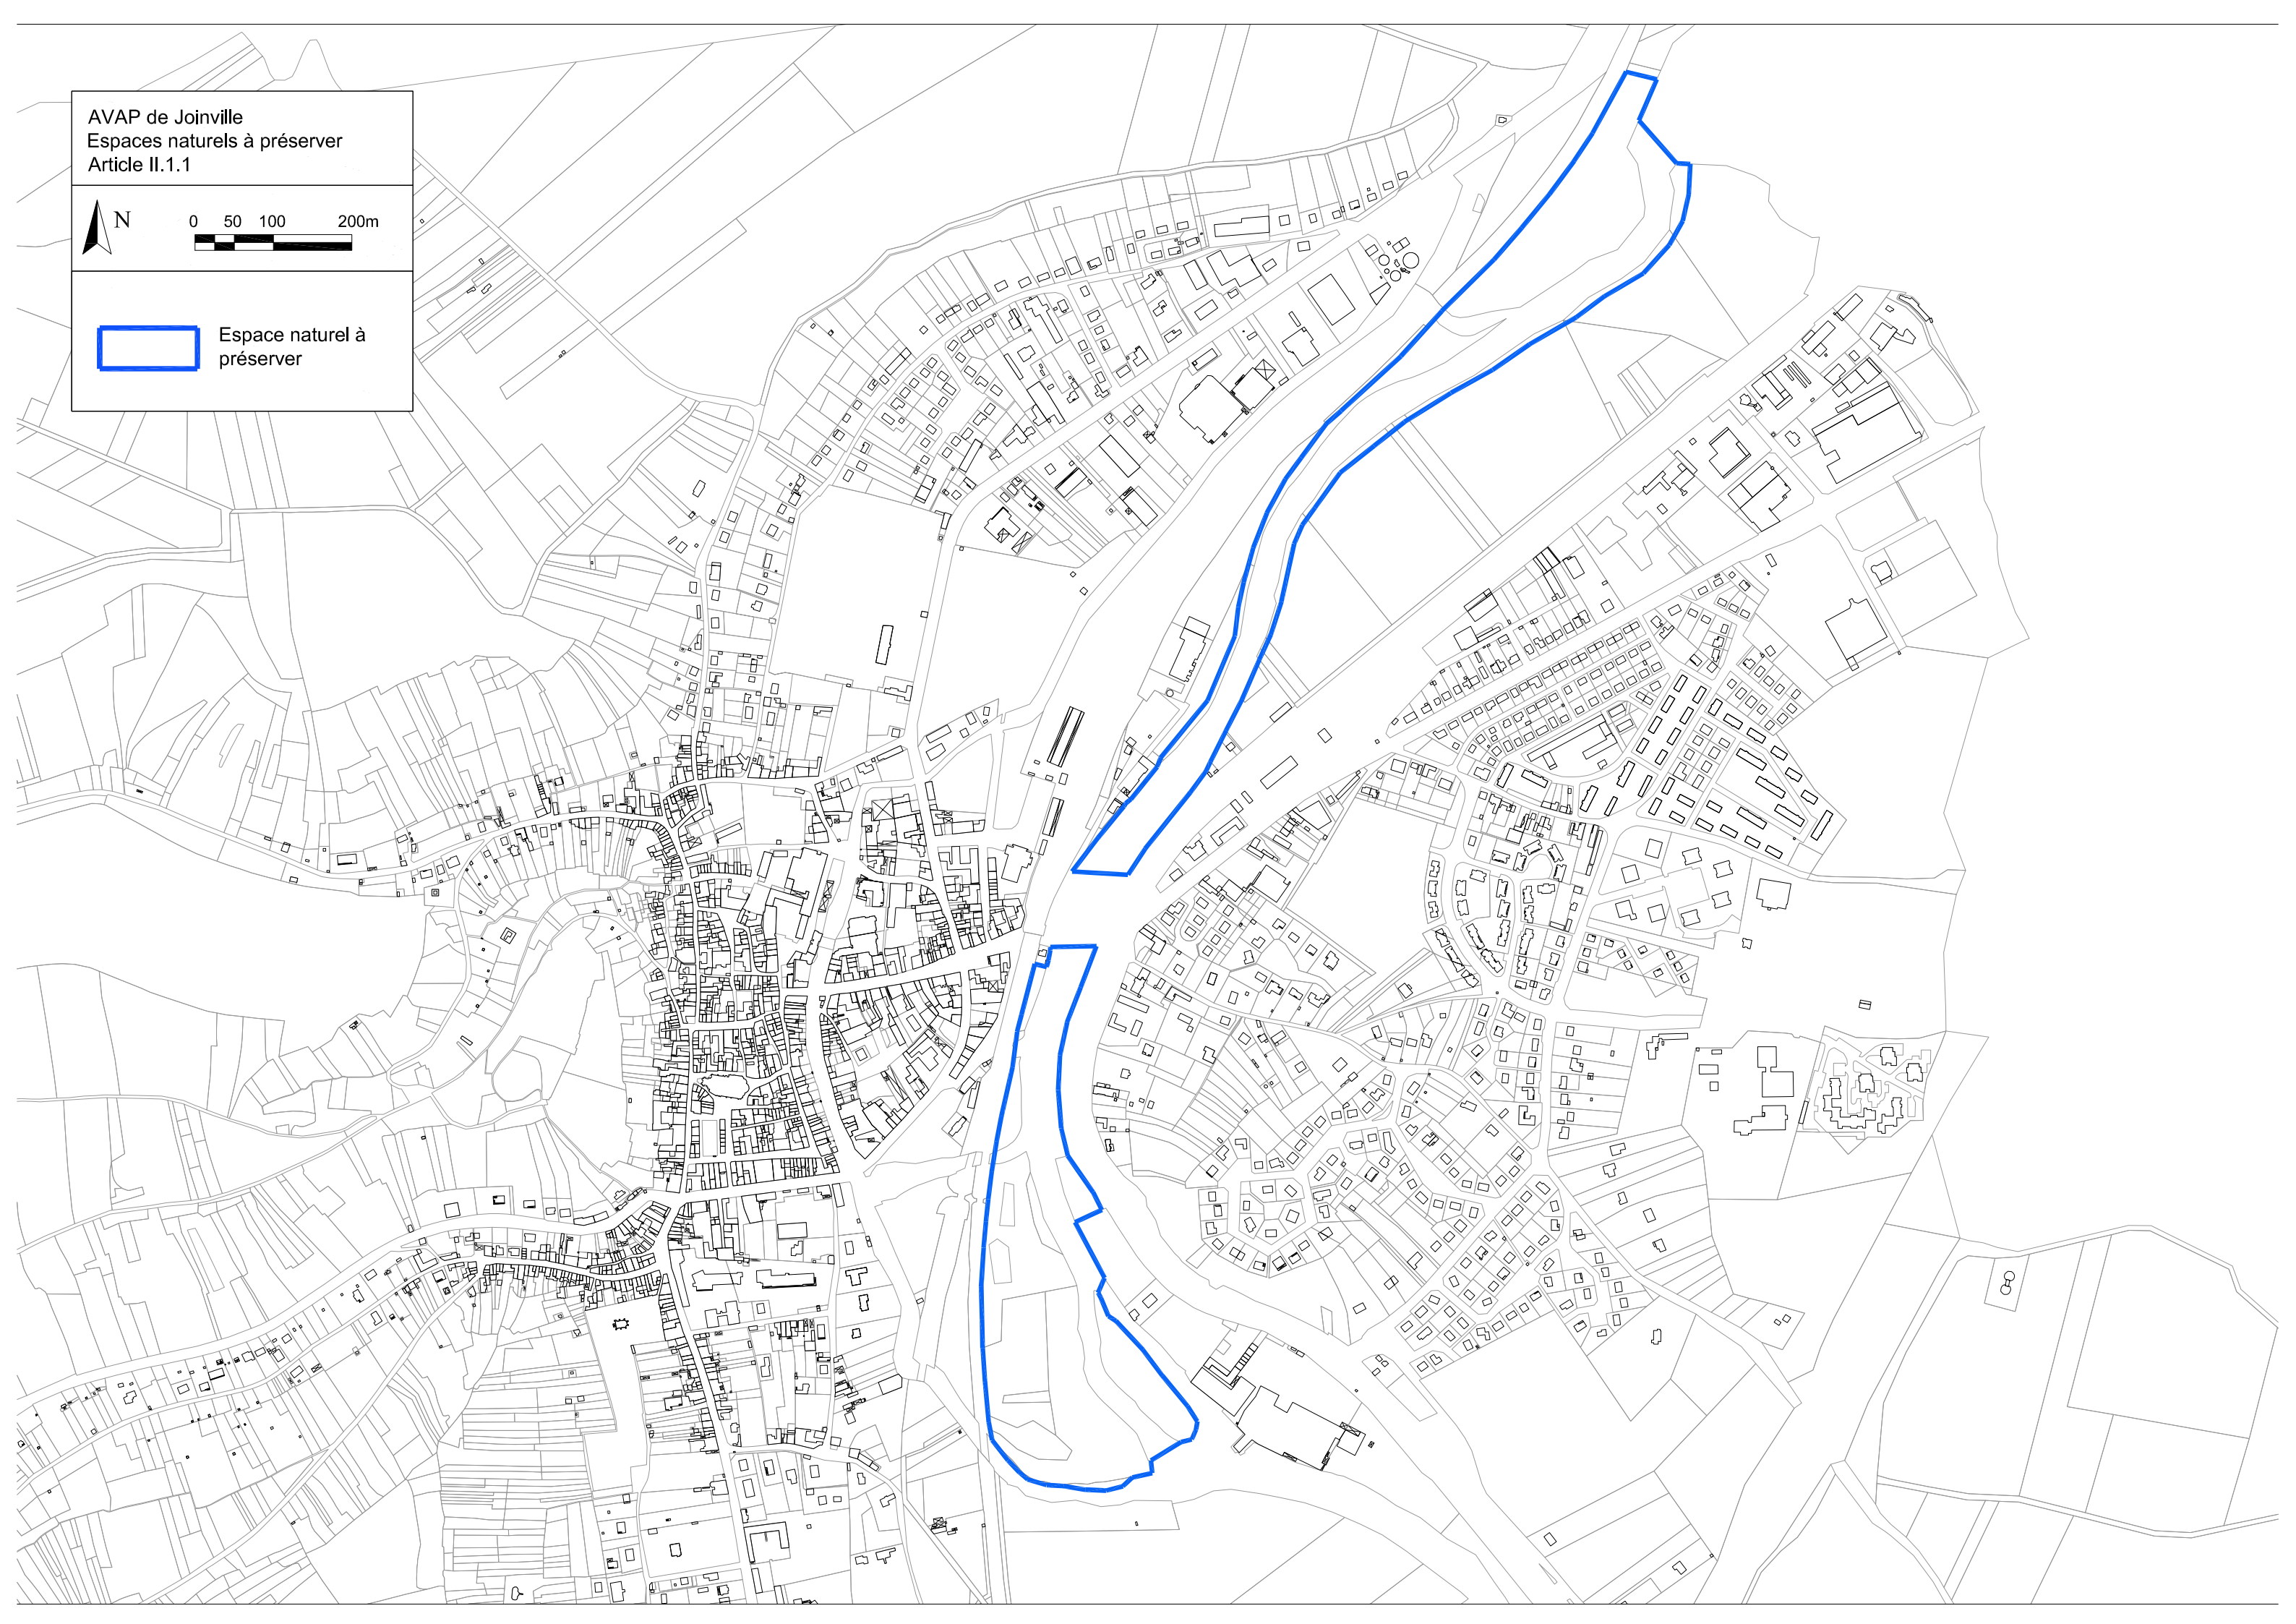

0 50 100 200m

A detailed map of Joinville, France, illustrating the application of the AVAP (Aire de Valorisation Architecturale et Patrimoniale) regulations under Article III.1. The map is divided into two main zones: the 'Centre historique' (Historical Center), outlined in red, and the 'Faubourgs' (Suburbs), outlined in orange. The red outline encompasses a dense, irregularly shaped area in the center of the town, characterized by a high concentration of buildings and narrow streets. The orange outline covers a much larger, more dispersed area surrounding the historical center, including various residential blocks and clusters of buildings. The map uses a light gray background to represent the urban layout, with black lines indicating building footprints and street networks. A legend in the top-left corner provides the key for the colored outlines and includes a north arrow and a scale bar (0 to 200 meters). The overall layout shows the historical center as a compact core, with the suburbs extending outwards in several directions.

 Pompe à bras à conserver

 Citerne à conserver

 N

051015m

This is a detailed cadastral map of a rural area. The map shows numerous property boundaries as thin grey lines. Buildings are represented by solid grey polygons of various shapes and sizes. A network of roads is shown, with 'D60' and 'Rue du Tivoly' labeled. Heritage markers are indicated by specific symbols: a stylized '1' with a question mark for 'Pompe à bras à conserver' (hand pump to be preserved) and a bold 'C' for 'Citerne à conserver' (cistern to be preserved). These markers are scattered across the map, often near buildings or along roads. A legend in the top-left corner explains these symbols and includes a north arrow and a scale bar (0-15m).

This is an inset map showing a larger geographical context. It is a black and white line map of a town or village, showing a dense network of streets and building footprints. A rectangular box is drawn on the map, highlighting a specific area that corresponds to the location of the main map shown on the left. The box is located in the lower-left quadrant of the inset map.
