LDEN 50

LDEN 56.5

LDEN 62

LDEN 70

limite commune

A detailed noise exposure map for the Lyon-Bron airport area. The map shows the airport's location relative to surrounding urban areas. Four noise contours are overlaid: LDEN 50 (green hatched), LDEN 56.5 (blue hatched), LDEN 62 (orange hatched), and LDEN 70 (red hatched). The contours indicate the spatial distribution of noise levels, with the highest levels (LDEN 70) concentrated near the airport runways. The map includes a compass rose pointing North and labels for various districts and landmarks, such as Meyzieu, Décines-Charpieu, Bron, and Vaulx-en-Velin. The map also shows major roads, rivers, and other geographical features.
