The map displays the water network for the Bourcq area. The network is primarily composed of P.V.C. pipes (pink dashed lines) and P.E. pipes (green solid lines). The network starts from a source in the north and branches out to various locations. The map also shows the location of various buildings and structures, including the church in Bourcq. The legend in the top left corner provides a detailed explanation of the symbols used on the map. A north arrow and a scale bar (0 to 75 m) are also present.
