

Parcelle ZB 47 · Pérourges (01290) · 3 360 m² au cadastre

A map of the study area showing the location of the study site (red rectangle) relative to the road network and surrounding features. The map includes a scale bar (0 to 50 m) and a north arrow. The study site is located near the intersection of Route 138 and Route 139, adjacent to the road network and surrounding features.

The map shows the Pérouges area with various geographical features and roads. A red circle with a diagonal line through it, indicating a regulated zoning area, is located near the center of the map. The map includes contour lines, roads, and various geographical features. A scale bar indicates 0 to 1 km, and a north arrow is present in the top right corner.
